

## **Resolution to Hold Washington State Elected Officials Accountable for Following the Washington State Democratic Party Platform**

**Whereas** the Washington State Democratic Party (our Party) has a process for creating a Party platform; and

**Whereas** the platform process includes Party members and elected officials throughout Washington state;  
and

**Whereas** our Party's platform is an expression of the values and mission of our Party; and

**Whereas** Democrats elected to office representing jurisdictions in Washington State agree to support and work for the tenets of our Party as laid out in the platform;

**Therefore, be it resolved** that we urge our Party representatives and constituent caucus representatives to develop a scorecard based on our Party's platform, and that elected officials who don't support that platform with their votes, actions and deeds at least 80% of the time shall not receive any support in the form of contributions, labor, marketing or advice from the Washington State Democratic Party.
